Enclosure No 2

Sir,

In forwarding herewith in origina letter No.45 dated 4-3-23 with its enclosures from the President, Minor Municipal Council, Hiriyur regarding the disposal of lands along the side of the Vedavathi river within the municipal limits of Hiriyur Town for fruit and cocoanut cultivation, I have the honor to state that on a previous reference made from this office in this matter reply was received in your letter No. L.2845/Ml. dated 16th November 1921 stating that that the proposal of the Municipal Council to grant the lands permanently free of cost for growing vegetables and fruits could not be sanctioned by Government

During my inspection of the Town with the President and the Municipal Councillors in February last, the people urged the necessity of the removal of

prickly

prickly pear grown very thickly and widely along the bank of the river, Vedavathi running round the Town and thereby rendering the locality most insanitary and unsafe

Under the existing rules relating to the removal of prickly pear the Municipality is not in a position to undertake the work on account of its poor finances, as the cost of eradicating the pest will be very high considering the wide and thick growth of the same.

Now, the people have come forward to take up the lands for cocoanut cultivation for which the land is reported to be eminently fitted up, provided the lands are given to them permanently free of cost and they agree to remove the pest at their own cost and in a specified time and make the land available for cultivation

In my opinion the cocoanut cultivation on the banks is not likely to seriously affect the public health of a place like Hiriyur either way. On the other hand it may induce the people to remove the prickly pear which is an undesirable feature of the banks at Hiriyur at present

Under these circumstances I request that you will kindly move the Government for reconsidering the question and pass needful orders in the matter

I have the honor to be,

S I R,

Your most obedient servant,

W. J. [illegible]

In submitting herewith a copy of letter (enclosed) re the disposal of lands overgrown with prickly pear running round the Hinyun Town along the Velavathi River, I beg to state that it is highly desirable in the interest of better sanitation and well-being of the people the whole belt of the unknown open for occupation and fruit cultivation permanently subject to the condition that the grantee would remove the prickly pear within a specified time. Sir,

With reference to the order No C 307 ml of 1920-21 Dated 20-1-21 re the actions taken in respect of the subject noted in the margin X inspection note of the 3rd member of Council when he visited Hmuyen down in December 20 I beg to state as follows

Your respected Note of the 3rd Member of Council in Chutalong Dist in Dec 1920 & Jany 1921 Suggesting Hmuyen proclamation being taken The people appear to be willing to take up the land for growing rice tables, fruits, etc if no price was charged for it. The Dy Comr may be requested to investigate the matter & Subl. detailed proposals" JMK 9/4/1923

Responsible Sheet

S No	Subject
45	Clearing out of the lands along the sides of the rivers for cultivation

The matter was placed before the council and all the members concurred with the opinion of the member of Council Applications were then called for Some 20 persons came forward and applied for the lands to convert them into repetable gardens and all of them prayed for the permanent possession of the land as they had to shend hundreds of rupees to get the forests from removed The matter was reported and orders are now received that the Government Could only grant the lands temporarily to all Such cultivators

On this Connection, I beg to state that all lands along side of the River lie within the Municipal limits and the wh

land is the road running round
the town with the old fort wall and is
very thickly overgrown with prickly pear
The sanitary condition and also the appearance
of the town could only be improved by
the removal of this prickly pear and
this would cost an enormous amount
The present financial condition of the
Municipality is very poor to undertake
such an important work. To accomplish
such a sanitary measure and also improving
the material prosperity of the poor people
those lands along the side of the river may
be recommended to be disposed of
by the Municipal Council to all the
applicants free of cost permanently
for converting them into vegetable
gardens and for encouraging Cocoanut
Cultivation. It is only then that any
substantial improvement in
Sanitation would be effected without
any cost

Enclosure No 2

Sir,

With reference to Government order No L 3823-27/Ml 185-22-4 dated 21st November 1923 sanctioning the proposal of to grant lands along the Vedavati river in Hiriyur town on certain conditions permanently free of cost for cocoanut cultivation and calling for a copy of mutchalika to be executed by the grantees for the approval of Government, I have the honor to forward herewith a form of the mutchalika received from the President of the municipal council with his report No. 41 dated 1st February 1924. A copy of the resolution of the municipal council is also enclosed.

It is observed that condition No 4 prescribed by the municipal council restricts the grantees from disposing of the lands in question to others without taking the same to the notice of the municipal council. Such a condition seems unnecessary if the requirements as

ಆ

prescribed by the municipal council are fulfilled by the grantee to the satisfaction of the municipal council Under the reasons stated above the condition No 4 may be slightly altered as noted in the margin

No alterations seems necessary as regards the other conditions prescribed by the municipal council

I request that you will be so good as to obtain the approval of Government for the same.
